Ava's Story

Ava's Pet Palace is a company based in greater Chicago that focuses on organic, non-GMO pet treats for cats and dogs. Ava's Pet Palace was started by Ava Dorsey, a 13-year-old "kidpreneur." Even as a young girl, Ava recognized the need for healthy pet treats made with quality and tasty ingredients. As a dog and a cat owner herself, Ava believes that every pet owner should have the option to buy natural pet food that prioritizes the health and wellness of their four-legged friends.

What's unique about Ava's Pet Palace?

Unlike most of the dog and cat treats in stores, Ava's Pet Palace treats are made in small batches and are 100% organic.

Ava's Available Flavors:

Cheeze Pleeze Bites - made from oat flour, brown rice flour, cheese, and eggs.

Peanutty Paw Cookies - made from oat flour, brown rice flour, bananas, peanut butter, and cinnamon.

Bingo's Banana and Oat Medley - made from oat flour, brown rice flour, bananas, cinnamon, and eggs.

Wild Alaskan Salmon Treats- Both for cats and dogs.

Ava's mission is to educate pet owners about pet food and help them explore options that simultaneously promote animal health and taste-bud satisfaction.

She sees the value of growing her brand in an era where people are more health conscious. "People are concerned about what they feed their family members," she said, "and this includes their pets."

Ava's long-term "treat goals" include creating freeze-dried dog treats and adding to her variety of cat treats.

Ava's Goals

As a young entrepreneur ,Ava is determined to make her brand a household name.

She has operated Ava’s Pet Palace for over four years, and is already showing great promise. Ava expressed that her ultimate goal is to become a veterinarian. Clearly, Ava has a deep love for animals, and she pours this compassion into her treats.

When Ava is not busy running her company, she likes to spend time with her pets and her two little sisters.
